**What to do:**

- **Day 1:** Set up the hatching area.
- **Day 2:** Place the eggs in the incubator.
- **Day 3:** Monitor the temperature and humidity.
- **Day 4:** Adjust the temperature and humidity as necessary.
- **Day 5:** Check the eggs for signs of hatching.
- **Day 6:** Remove the eggs that are ready to hatch.
- **Day 7:** Continue to monitor the incubator temperature and humidity.
- **Day 8:** Begin feeding the newly hatched chicks.
- **Day 9:** Continue to provide food and water.
- **Day 10:** Monitor the behavior of the chicks.
- **Day 11:** Check the health of the chicks.
- **Day 12:** Continue to provide care for the chicks.
- **Day 13:** Monitor the growth of the chicks.
- **Day 14:** Continue to provide food and water.
- **Day 15:** Continue to monitor the health of the chicks.

**Happy Hatching!**

If you set your eggs early, remember the next day is Day 1.

Remember to check your incubator temperature and humidity frequently throughout each day.

Setup your incubator ahead of time to ensure it won't be disturbed, away from drafts & sunlight.

**This is your hatching calendar.**
