**From Farm to You**

From Farm to You is a one-day event designed to show second grade students that agriculture impacts everyone from the food we eat to the clothes we wear and more! Every class gets to visit 10 learning stations taught by experts in the field of agriculture. This event fills fast! Look for registration information to arrive in your mailbox around February 1st.  

**DEAR EDUCATORS,**

First, let me introduce myself; my name is Haley Kelley, I am the new 4-H Program Assistant. This is my fourth year coordinating the 4-H School Enrichment program.

K-State Research and Extension has a long tradition of providing school enrichment programs to classrooms in Shawnee County. Again this year we are offering you exciting, hands-on, educational programs to supplement your curriculum. Our programs do require a small fee to cover the cost of materials being used. We invite you to take advantage of the 4-H School Enrichment programs offered on the following pages.

Please note the dates the programs are available and place your order a month in advance if possible. Priority will be given to the orders received first. We do try to reach as many students as we can with our limited number of programs. Any classroom number under 10 may be placed on a wait list. All program dates are subject to change. Educators will be notified if this occurs.
