# How much income can I have and still be eligible?

The amount of assistance you receive is based on your household's size and income after deductions (net income).

Your total income, before taxes or any other subtractions, is called gross income. Deductions for things like housing costs, child support payments, child-care costs, or monthly medical expenses over \$35 for elderly or disabled people may be allowed.

The amount left over after these deductions is your net income.

If your household includes a person who is 60 or older or is disabled, only the net income limit must be met.

If you are close to the income limits, go ahead and apply.
